Screenshot	Description
	<p>Please install Citrix Workspace App with administrative permissions. To start the installation, <b>click right on the file and select "Run as administrator"</b></p>

	<p>Accept the license agreement by selecting the check box and click "Next".</p>
	<p>Leave the "Enable Single Sign-On" Option unchecked and click "Next".</p>
	<p>Leave the "App protection" Option unchecked and click "Install".</p>
	<p>The installation starts.</p>

 <p>The screenshot shows the Citrix Workspace application window. At the top left is the Citrix logo. Below it is a large green checkmark followed by the text "Installation successful". Underneath, there is a paragraph of instructions: "If you received instructions to set up Citrix Workspace app with your email or a server address, click Add Account. Otherwise, click Finish, and you can set up an account later." At the bottom of the window, there are two buttons: "Add Account" and "Finish".</p>	<p>After the successful installation please click on "Finish".</p> <p>After the successful installation, please reboot your computer.</p>
 <p>The screenshot shows the "Add Account" wizard window. The title bar says "Add Account". The main heading is "Add Account". Below it, the text reads: "Enter your work email or server address provided by your IT department:" followed by a text input field. At the bottom left, there is a checked checkbox with the text "Do not show this window automatically at sign-in.". At the bottom right, there are two buttons: "Add" and "Close".</p>	<p>In Some cases the "Add Account" Wizard will show up after the successful installation.</p> <p>In that case please click the Checkbox next to "Do not show this window automatically at sign-in" and Close the wizard</p>
